WRBP 500 M-M8-4.0

Glass fiber optics

- Thread M12x1, for screwing on to transmitter and receiver.
For hard-to-reach places and high temperature ranges.
- High-quality glass fibers
- Resistant to high temperatures
- Robust, highly flexible

Technical data (typ.)

Length	500 mm (Fiber optics)
Dimension fiber bundle	Ø 4.0 mm
Bending radius	> 3 x tube-Ø
Material of fiber	Glass fibers
Material	<ul style="list-style-type: none"> ■ Stainless steel (Sensor probe) ■ metal sleeve (Coating)
Component	Glass fiber optics
Operating principle	Through-beam sensor
Single fiber	Ø 0.05 mm
To be used for	Device series OP-M12
Temperature resistance	-40 ... +180 °C
Protection type	IP 67

+20°C
